

Creative Themes Day Camp Pre-Camp Newsletter

Director's Notes

We are very excited to start our summer off with a revamped pre-camp experience. We will be utilizing all areas of camp that your children will love. This includes things like our nature trails, fishing, canoeing, archery, age-appropriate adventure areas, arts and crafts and much more. Using these activities, campers will become comfortable with their surroundings and interacting with other children. We have highly trained staff that create the safest and most fun environment possible for your children. Your children will be coming home with full minds and tired bodies.
